

REACH COMPLIANCE LETTER

The Europe's new chemicals legislation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) entered into force on 1 June 2007. The European Free Trade Association (EFTA) is an inter-governmental organization set up for promotion of free trade and economic integration to the benefit of its four Member States: Iceland, Liechtenstein, Norway and Switzerland. The Association is responsible for the management of the European Economic Area (EEA) Agreement, which enables three of the four EFTA Member States (Iceland, Liechtenstein and Norway) to participate in the EU's Internal Market.

REACH is based on the idea that industry itself is best placed to ensure that the chemicals it manufactures and puts on the market in the EU do not adversely affect human health or the environment. This requires that industry has certain knowledge of the properties of its substances and manages potential risks. In addition, all substances of very high concern present in articles above a concentration limit of 0.1% weight by weight and present above 1 tonne per year.

D-Link policy is to be compliant with the REACH legislation and to work closely with suppliers and customers. This declaration is part of our policy of keeping our customers informed about our REACH commitment.
